

## THE INSIDER'S GUIDE TO HIGH ROCK

If your child is anxious about coming to High Rock, then they will benefit from this fun orientation for rising sixth graders. Students will learn how the 6<sup>th</sup> grade schedule works and what a typical day at High Rock will be like. A scavenger hunt will help the students learn their way around their new school. The class is also an opportunity to make some new friends before sixth grade even begins! There will be plenty of chances for participants to ask anything and everything they want to know about 6<sup>th</sup> grade.
