April 15, 2017

Dear Town Meeting Members:

The Needham School Committee invites you to consider its operating budget request for the fiscal year ending June 30, 2018 (FY 2017/18). The proposed budget, which totals **\$68,350,083**, represents a **\$3,160,169 (4.85%)** increase over the current year operating budget of **\$65,189,914**.

The final recommended budget amount is \$467,660 less than the Superintendent's preliminary budget recommendation of \$68,817,743, to meet anticipated revenues for 2017/18. We appreciate that the Finance Committee supports the School Committee's \$68,350,083 final budget request.

This budget proposal outlines the resources the schools need to support a viable and innovative educational program for our students, one that is consistent with our core values of **Scholarship, Citizenship, Community, and Personal Growth**.

The FY18 budget plan was developed to address contracted salary increases, growing special education costs, expanded student enrollment, and targeted program improvements.

Several key budget "drivers" are impacting the proposed FY18 budget plan.

What is driving the overall budget increase? The major components of the overall budget increase are described below:

2017/18 Budget Calendar

Sept 2016 – School Committee Developed School Budget Priorities & Guidelines

Oct/ Nov – Superintendent Developed Preliminary Budget Recommendation, Based on School Committee Guidelines

Dec 2 – Superintendent's Budget Request Sent to School Committee, Town Manager and the Finance Committee

Dec/Jan – School Committee Holds Public Hearing(s) and Reviews the Superintendent's Request in Concert with the Finance Committee

January 2017 – School Committee Sends Formal Budget Request to the Town Manager (Due on or Before Jan 31.)

January – Town Manager Presents Balanced Town-Wide Budget Proposal, Including the Voted Request of the School Committee, to the Finance Committee for Formal Deliberation

Jan/Feb/Mar – Finance Committee Reviews Budget Requests and Holds Public Hearings

March – Finance Committee Votes its Final Budget Recommendation to Town Meeting. The Finance Committee's Recommendation is Considered the Main Motion to be Acted Upon by Town Meeting

May 1 – Annual Town Meeting

July 1, 2017 – New Fiscal Year Begins

- **Contractual Salary Increases** - Negotiated contracts for all employees account for \$2.02 million, or 3.09% of the 4.85% overall requested increase. In order to recruit, support, and retain a talented faculty and staff, we must provide reasonable yet competitive salaries for our staff, teachers, and school leaders. In addition, the FY17-19 Unit A Collective Bargaining Agreement provides for the addition of a 183rd day for teachers beginning with the FY18 school year.
- **Increased Special Education and Student Support Costs** – Several factors have contributed to the growth in special education and student support needs, including: students moving into the district with significant needs; increases in out-of-district tuition and transportation placements and costs; and the growth of programs required to assist students with autism, anxiety and emotional disturbances. Increases in this category total \$0.37 million and represent 0.57% of the 4.85% overall requested increase.
- **Enrollment and Class Size Support.** While overall enrollment is projected to increase only slightly next year, there remains a need to ensure that class sizes today stay within acceptable School Committee policy guidelines. The budget proposal includes 2.35 Full Time Equivalent (FTE) teachers and 1.0 FTE teaching assistants at the elementary and secondary levels to keep class sizes

steady and provide for associated increases in K-12 specialist support. It also provides collaboration time for teachers at the Kindergarten level, promotes the recruitment and retention of substitute teachers in the District and supports the ongoing training of the professional staff. This category represents 0.35% of the 4.85% overall requested increase.

- Reading, Math and Curriculum Support** – A total of \$202,805 is requested to support curriculum and instruction in the District, including making the following targeted program improvements: adding 0.4 FTE literacy specialists at Broadmeadow and Newman; hiring a full-time Math Intervention Teacher at Pollard; augmenting visual arts integration at High Rock; providing collaboration time for Kindergarten teachers; purchasing textbooks and curriculum materials; strengthening elementary math instructional leadership; and providing instructional leadership team advisors for each elementary school. Reading, math and curriculum supports represent 0.31% of the overall 4.85% budget increase.
- Technology** – Targeted program supports are made in this area as well, including: increased support for technology integration (1.45 FTE) and technical support (0.44 FTE); funding to provide Chromebooks for each rising 9th grader to support the Personalized Learning Initiative; and licenses and software for health services, business and human resources. These requests total \$207,565 and represent 0.32% of the 4.85% overall requested increase.
- Other Increases** – All other requests represent 0.21% of the overall increase and include funding to provide additional administrative and technical support to staff, teachers and students by increasing the High Rock Assistant Principal (0.2 FTE) and by providing additional human resources, business and instructional support positions (2.43 FTE.)

"25 in 50" by Anna Singer (NHS, Grade 11)

Significant Assumptions Incorporated Into the FY18 Budget:

- The budget assumes that total PreK-12 enrollment (excluding students attending out-of-District placements) will be 5,632 in 2017/18, up 44 students from the FY17 enrollment of 5,588. Elementary enrollment is projected to increase by 17 students (from 2,552 to 2,569); middle school enrollment is expected to decrease by 4 students (from 1,297 to 1,293) and high school enrollment is expected to increase by 31 students (from 1,659 to 1,690.) Pre-Kindergarten enrollment is expected to remain constant at 80 students. A total of 91 out-of-district students also are expected.

Although enrollment will increase by 0.8% overall, a total of 2.35 FTE teaching staff and a full-time teaching assistant are needed to preserve class size and to provide sufficient elective offerings. At the elementary level, 0.3 FTE specialist teachers are needed to preserve the elementary schedule in the arts and physical education and a 1.0 FTE teaching assistant is needed to alleviate potentially large class size at Mitchell School. An additional 0.1 FTE elementary classroom teacher, formerly funded by a federal grant, is shifted to the operating budget in order to preserve class sizes at Newman. At the High School, a total of 1.15 FTE teachers are needed to maintain class sizes in Math, Science, Social Studies and English. Additionally, 0.6 FTE teachers are needed to preserve elective options in World Language and the Arts, and a 0.2 FTE teacher is proposed to staff the DaVinci Innovation Lab.

Projected enrollment is presented in the table below. As evident from the table, the ten-year projection is for continued growth, particularly at the high school level.

- Cost of living adjustments are provided for school staff, including teachers (2%) and administrators (2.5%), as negotiated in the Unit A and Unit B collective bargaining agreements, respectively. Modest cost of living adjustments also are budgeted for the other units, whose contracts will be negotiated during this fiscal year: Unit C instructional support, Unit D clerical support and Unit E nutrition services personnel.
- Level funding is proposed for non-salary accounts. All budget increases beyond level funding are highlighted beginning on page 21.

Budget Development Process & Priorities:

The FY18 budget development process began earlier in the school year, when the School Committee identified budget priorities to guide the administration in the budget planning process. These included:

- The District's values and goals
- The need for highly qualified staff, teaching within established student/teacher ratio guidelines.
- The ongoing refinement of curriculum, instruction and assessment practices; and

- The need to develop and maintain educational resources and a technology infrastructure that supports student learning and meets District goals.

Administrators developed budget requests in the fall and submitted them for consideration and discussion in November. The Central Office Administration then met with principals and program directors to review and discuss budget requests in light of the School Committee's identified priorities and district goals. Finally, the Superintendent consulted with the Town Manager and the School Committee and Finance Committee budget liaisons to understand Town and School needs as they relate to the overall budget planning process. The School Committee supports the Finance Committee's final recommendation and looks forward to presenting this recommendation to Town Meeting members in May.

(NHS, Grade 9)

What are the Capital Project Priorities for FY18?

The School Committee has identified the following technology and equipment replacement needs for FY18, which are recommended for funding as follows from the Capital Improvement Budget:

*"Organic Explorations,"
Talia Newfield (NHS, Grade 10)*

- \$463,500 to replace District computers, servers and other technology,
- \$46,790 to replace school copiers,
- \$45,000 to replace school furniture, and
- \$99,611 to replace school pupil transportation vans.

Additionally, the School Committee seeks additional funding for the following capital construction projects and feasibility studies:

- \$210,000 to construct walking trails behind the new elementary school on Central Avenue and
- \$50,000 to study space options for Full-Day Kindergarten.

Finally, the Town Manager has recommended funding for a package of projects to expand and improve Needham High School. These include a project to expand the number of classrooms at the school, replace the chiller, renovate the A Gym and reconfigure lockers at the school. Town Meeting will be asked to appropriate design funds for the classroom expansion (\$825,000) and chiller replacement (\$400,000) in May.

Additional funding also is recommended to make minor renovations at the Pollard Middle School. One project would renovate four sets of boys' and girls' bathrooms. This project, recommended for funding at \$650,000, completes work that was started last year to update bathrooms at the school. A second project would replace the rubber flooring in the Blue and Green Gyms with updated materials that are suited to basketball use and install mats along the side of the gym for safety. A total of \$45,000 is recommended to design the project.

Finally, the District continues to work with the Massachusetts School Building Authority to construct the new elementary school on Central Avenue. The new school, which is in the design development stage, is scheduled to open in September, 2020.

Closing Remarks:

A well-crafted budget expresses an organization's goals and priorities, as it describes in a very tangible and measurable way the financial resources to be expended toward achieving those goals. It does not, and is not intended to describe the results achieved. For the Needham Public Schools, those results are reflected in the accomplishments of our students as they progress through their education and emerge from Needham schools prepared to take their places as citizens in the community. Evidence of their achievements can be found at the end of this document and in the School Department's annual Performance Report. You can learn more about Needham Public Schools, its programs and accomplishments, on our web site at: www.needham.k12.ma.us. Members of the School Committee are, of course, available to hear from you.

The School Committee thanks the Superintendent and our outstanding staff, who have, as always, worked so hard to prepare this budget. The School Committee values our excellent ongoing collaboration with the Selectmen, Town Manager and Finance Committee in our collective effort to craft a sustainable Town-wide budget that meets the needs of all citizens. We greatly appreciate the continued support of all the Town of Needham committees, boards and citizens, and we respectfully ask for your support at Town Meeting.

We also wish to recognize the achievement of our talented Needham High students who participated in the 2017 Needham Art in Bloom Exhibit. This is the 9th year of the Exhibit, which is sponsored by the Beth Shalom Garden Club and NHS Fine Arts Department. During the weekend of March 3rd – 5th, artwork was displayed in various locations in Town. We have reproduced some of the impressive and thought provoking pieces from that Exhibit on these pages. Enjoy!

Sincerely,

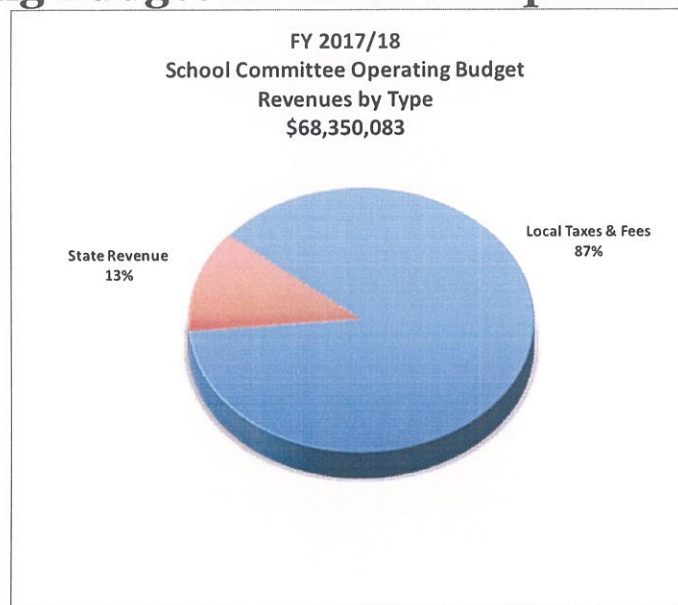

Susan B. Neckes ('18)
Chair, Needham School Committee 2016-17

(5) FY18 Town Manager Proposed Budget, Jan 24, 2017

Anticipated revenue for School Department operations in FY18 are shown above. These revenues, which consist of education-related “Cherry Sheet” aid from the state and other local revenue, are based on January 2016 Town-wide revenue projections. Although the above chart attributes all of the Chapter 70 and education-related aid to the School Department, the Town considers Chapter 70 funds to be a General Fund receipt, which is apportioned with other local funds to both school and Town operations during the budget process. Based on this analysis, approximately 12.6% or \$8,583,316 of the \$68,350,083 school operating budget is funded by state revenue. Property taxes and other local receipts make up the difference, or \$59,766,767. The Town Manager’s estimate of Chapter 70 Formula Aid for FY18 of \$8,671,395 is less than the \$9,105,193 amount proposed by Governor Baker, based on a conservative assumption of level funding from the current year. During the winter and spring months, the Legislature will review the Governor’s budget proposal and will release its own budget proposal, which could include a different Chapter 70 revenue estimate.

Grants and fees are received outside of the regular school operating budget, and are not appropriated by Town Meeting (with the exception of the school transportation fund.) These revenues are summarized in charts at the end of this document.

Trends in School Budget Revenue:

Trend: Predominately Local Funding for Education:

Local taxpayers provide the majority of funding for school operations. The FY18 budget assumes that local taxpayers will fund 87.4% of the school operating budget, while 12.6 % will be funded by the State. The state/local funding shares have remained relatively steady for the past several years, even as the state has contributed more money to education.

In FY07, the state revised its Chapter 70 formula to provide more funding to communities like Needham, where enrollments are growing, or where local funds comprise more than 82.5% of the foundation budget. The foundation budget is the level of funding the state says is needed to ‘adequately’ fund public education; \$53,795,078 in FY18. It consists of a required local contribution of \$44,689,885 and a state aid allocation of \$9,105,193. The revised funding formula capped the local share at 82.5% of the foundation budget amount, and promised a ‘phase in’ of additional revenue over a multi-year period to reach this target amount. (The State’s target funding percentage is 17.5%.) In FY06, Needham funded 97.4% of its foundation budget requirement, while the State funded 2.6%. For FY18, the Governor has proposed funding the state allocation at 16.93%, which is slightly more than the current year share of 16.6%.

Massachusetts Department of Elementary and Secondary Education FY18 Chapter 70 Summary

C70 % of foundation	16.60%	16.93%		
Required NSS % of foundation	100.20%	100.00%		

The chart on the next page depicts changes in state and local funding for school operations. Based on the Town’s revenue projections for FY17, the portion of the school’s operating budget that is funded by state revenue is projected to increase slightly from 12.4% to 12.6%, while the portion funded by local revenue is projected to increase from 87.6% to 87.4%.

Trend: Continued Recovery of State Support for Special Education Tuition Expenses:

The state has continued its program of providing financial support for volatile special education out-of-district tuition expenses. The FY18 budget reflects our expectation that state support for special education tuition expenses will continue along a path of recovery, toward the goal of full-funding.

In FY04 the “Circuit Breaker” program was voted by the State Legislature, replacing the former “50/50” program, which reimbursed districts for 50% of the cost of special education students placed in residential settings. The purpose of the Circuit Breaker program was to help districts pay for unexpected expenditures, during the year in which the increase occurred and provide more state funding for special education expenses. The formula voted by the State Legislature called for districts to receive 75% of their costs exceeding an amount

equal to four times the state foundation budget per pupil. (In FY18, this four-times-foundation budget per pupil amount is budgeted to be \$43,095.) However, because Circuit Breaker reimbursements are subject to appropriation, the actual reimbursement percentage has varied. In FY04, the State reimbursed districts at 35%. Between FY05 – FY08, the program was fully-funded at 75%. Due to state budget constraints, however, the reimbursement rate subsequently dropped to 42.34% in FY10 and 43.66% in FY11. Federal stimulus funds were used to cover the budget shortfall during this period. Since then, the state has allocated more funding to Circuit Breaker, in an attempt to restore the reimbursement rate. The rate increased again over the next several years, reaching a peak of 75% in FY14 and FY16 and then falling to an estimated 70% in the current year. The budgeted reimbursement rate for FY18 is 70%.

Trend: Additional Grant Funding and Increased Reliance on Fee-Based Programs to Support Operations:

Whenever possible, the School Department seeks to enhance its programs and services through outside funding. Grant and fee-based programs are received outside of the regular school operating budget, but support school operations in many cases.

Current year grant funds (excluding Circuit Breaker funds) total \$2,792,226, which is \$40,239 (1.5%) more than last year. This increase reflects additional entitlement aid, including special education entitlement (94-142) monies and METCO grant funds. Needham Public Schools expects to receive additional Needham Education Foundation (NEF) small grants in the Spring, the total amount of which is not yet known.

Over time, Needham has received a growing amount of external grant funding. Since FY07 (ten years ago), total grant funding has increased by \$232,116 or 9.1%, from \$2,560,110. The makeup of those dollars has changed, however. Most of the increase is driven by federal entitlement funding for special education services and METCO monies. Since FY07, entitlement grant funds have increased by \$392,836 (18.0%). These gains have been offset by the loss of competitive grant funds from the State, which have now been completely eliminated and a reduction in private/foundation grants.

Fees continue to play a major role in funding critical school programs. As operating budgets have been squeezed, parents have been asked to provide more support for extra-curricular programs or non-mandated services, such as transportation, athletics, and after school programs. In FY16, the School Department collected \$5,710,657 in fee revenues from 50 different fee-based programs. Some of the largest fee based programs are described below:

Program	FY16 Revenues	FY16 Fee
School Food Services	\$2,017,239	\$2.30/meal ES \$2.55/meal MS & HS
Kindergarten After School Program (KASE)	\$964,496	\$3,940/year (5-Day Week)
Transportation	\$571,945	\$395/rider; \$800 Family Cap
Athletics	\$624,578	\$285/Interscholastic Sport Athlete with Surcharges of: \$250 Hockey & Ski; \$50 Swim & Dive. \$225/Club Sport Athlete with Surcharges of: \$175 Sailing, Squash, Fencing & Snowboarding; \$75 Bowling & Water Polo. Family Cap of \$1,140. Event Tickets \$5 Adults/ \$3 Students/Seniors
Fee-Based Music Instruction	\$214,178	\$100/student group lessons \$768/32 weeks private lessons (+ \$60 registration fee)
Adult Education	\$243,362	Fee based on program offerings
Preschool	\$251,203	\$4,200/year (4 Day, Half Days)

The School Committee's FY17 budget request totals \$68,350,083. This budget represents a 4.85%, \$3,160,169, increase from the current year budget of \$65,189,914. Salaries account for 85.9% of the total budget request, while purchase of service and expense accounts total 14.1% and capital outlay represents < 1%. Salary expenses increase by \$3.1 million (5.5%), reflecting the 21.26 FTE new positions required for special education and enrollment growth, as well as contractual salary adjustments for staff members. In addition, the salary budget includes funding to increase the work year for teachers from 182 days to 183 days, as negotiated in the FY17-19 Unit A Teacher Contract. Purchase of service and expense accounts increase by 14.1% (or \$103,070), reflecting increased spending on special education tuitions, as well as technology software and services. Capital outlay is level funded at \$4,750 in FY18.

Expenditures by Functional Area & Department:

Trends in School Operating Budget Expenditures:

Trend: Real Spending Steady Over Time – Budget Increases Due to Impact of Inflation, Enrollment and Growth in Special Education Expenses

Real spending on education has been relatively steady over time; budget increases have been due largely to the impact of inflation and enrollment growth as well as increases for special education. Since FY 08, the school operating budget has grown from \$40,799,858 to \$68,350,083, an increase of \$27,550,225 (67.5%). Nearly all of this increase is attributed to the combined impact of inflation and growth, as well as increases in special education programming, rather than new programs and services. Since FY08, the Consumer Price Index –Urban Consumers has increased by 14.6%, while enrollment has increased by 11.5%. By contrast, special education spending has nearly doubled in size – growing by 82.4% over the same time period. The chart above illustrates the portion of operating budget increases since FY08, that are due to inflation, enrollment growth and increases in special education spending.

Trend: Per Pupil Expenditures Comparable; Needham Offers “Good Value” in Education

Despite the impact of inflation, enrollment, contracts and mandates, Needham offers ‘good value’ for its educational dollar. Using Massachusetts Department of Education per pupil expenditure data (which includes expenditures from the school operating budget, as well as grants, revolving funds and education expenses included in other Town budgets, but not expenditures for community services, capital expenditures or debt retirement), we see that per pupil expenditures in Needham have remained comparable to the state-wide average over time, and have been consistently less than the average per pupil expenditure of the twenty communities, with whom we typically compare ourselves. Needham’s FY15 per pupil expenditure of \$15,900 was just slightly more than the state average of \$14,920, but less than the twenty-community average of \$16,834. Since FY05, Needham’s per pupil expenditures have grown at approximately the same

rate as our 20 comparison towns (49% compared to 48%, respectively), but faster than the growth in state-wide per-pupil expenditures (of 41%).

(1) Source: Massachusetts Department of Education. These figures represent "total integrated education costs" divided by "net average membership," as a measure of "the average cost of education for all children residing in a community, regardless of the district where they attend." Total integrated expenditures include school operating, grant and revolving fund expenditures; all related educational costs incurred by Town Departments (such as benefit and administrative overhead), tuition paid to other schools, and the Minuteman assessment. Net average membership is the sum of pupils in local schools, other public school districts and in special needs day and residential programs.

(2) Source: Massachusetts Department of Education. The integrated Cost Per Pupil calculation was discontinued in FY02. Beginning in FY02, Per Pupil Expenditures exclude children being educated outside of the district. Similarly, tuition, regional district spending, and other payments for out-of-district pupils no longer are factored into the per pupil spending statistic.

(3) Source: Massachusetts Department of Education. Beginning FY05, the per pupil expenditure methodology was changed to include all school-related expenses, including costs for local resident pupils educated out of district and municipal expenses on behalf of the schools. Expenditures also are calculated for specific functional areas.

The charts on the next pages depict per pupil expenditures in Needham, relative to the state average. As evident from the scattergram, Needham's overall per pupil expenditure level of \$15,900 for 5,626 students (circled in green) is comparable to other districts. Similarly, Needham compares favorably in the major categories of educational spending, as shown in the charts below.

FY18 Budgeted School Department Enrollment

The budget assumes that total PreK-12 enrollment (excluding students attending out-of-District placements) will be 5,632 in 2017/18, up 44 students from the FY17 enrollment of 5,588. Elementary enrollment is projected to increase by 17 students (from 2,552 to 2,569); middle school enrollment is expected to decrease by 4 students (from 1,297 to 1,293) and high school enrollment is expected to increase by 31 students (from 1,659 to 1,690.) Pre-Kindergarten enrollment is expected to remain constant at 80 students. A total of 91 out-of-district students also are expected.

*SP indicates post graduate special education students counted separately by DESE October enrollment

NPS also has 91 Out of District students with special needs paid for by the district. The DESE excludes out of district placements from District enrollment.

Trends in School Enrollment

Needham's population has been growing steadily, over the past years, in contrast to the rest of the state. Over the past twenty years (since FY97), Needham's K-12 enrollment (excluding Preschool students and pupils attending school out-of-District) has grown 35.1% from 4,110 (FY97) to 5,552 (FY17.) By contrast, statewide enrollment has grown by only 0.5% over the same period, and since FY03 has been in decline.

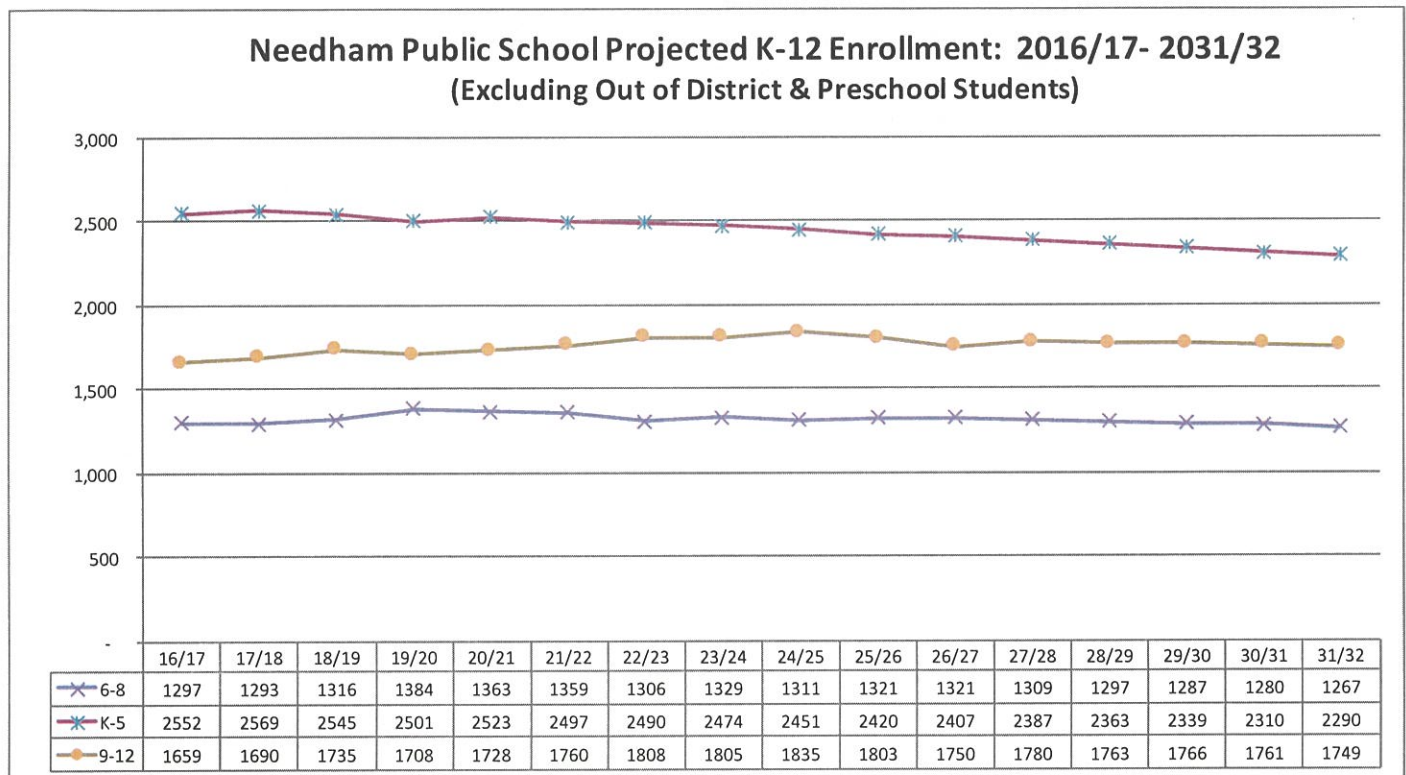

Projected Enrollment – FY18 and Beyond

Over the next fifteen years, Needham's enrollment is projected to decline overall, according to a recent analysis by McKibben Demographics Research (November 2016.) This analysis reflects the projected impact of the local 18-24 year old population leaving the District to attend college or move to other urbanized areas, an increase in the number of empty nest households and the inflow of young households/families into Needham. Since the impact of in-migration is not projected to be enough to offset the population outflow, enrollment is projected to decline overall. The result is smaller cohorts of students entering and moving through the school system in conjunction with larger cohorts of students leaving the system. These assumptions are heavily dependent on the rate, magnitude and price of existing home sales in the District, as well as the ability of families to continue to afford to purchase these homes.

Charts depicting the historical increase and projected decline in enrollment are presented below.

The composition of enrollment growth also is expected to change over the next 15 years. Declining enrollment at the elementary level will be balanced by an increasing middle school population for much of the forecast period, and by high and steady enrollment at the High School. Between FY17 – FY32, enrollment in grades K-5 is expected to decline significantly, from 2,552 in FY17 to 2,290 by FY32. By contrast, Middle School enrollment is projected to increase through FY20, as the larger elementary cohorts reach middle school, then decline slightly to 1,267 by FY32. High School enrollment, however, is projected to increase and remain at high levels for the entire fifteen-year projection period, as the existing student cohorts move through the system. The high school population is projected to increase from its current level of 1,659 to 1,749 by FY32.

Staffing Ratios:

The high value per dollar expended of Needham education also is demonstrated by the following staffing ratio chart, which shows that, in FY16, there are more students assigned to each teacher in Needham, on average, than in most surrounding communities and in the state, overall. Needham's average student to teacher ratio (14.3:1, which includes special education classrooms) also is higher than the state-wide average ratio (13.2:1.) Source: MA Department of Education
